Vide the above referred Minutes, it was desired that at important stations, where large volume of traffic was being handled, Railways should plan to provide Kota stone flooring in the concourses and the main platforms, as this type of flooring was easy to maintain and looked better. It was also emphasized that before undertaking such works it must be ensured that all the trolleys plting at the station are provided with rubber-tyred wheels.

It is desired that these instructions be brought to the notice of all concerned and their implementation ensured.
